### **CONTRIBUTIONS OF THE DEPARTMENT**

As the department is involved in Research activities, the inference of our research in the form of age determination and incidence of various types of injuries, are helping in various medico-legal activities of the state. The knowledge of various faculty members is being used for giving expert opinion to Delhi Police, CBI, & NHRC. etc.

51. Detail five major Strengths, Weaknesses, Opportunities and Challenges (SWOC) of the department.

**Strengths:**

The strength of the department is in the form of 13 doctors and 10 paramedical staff in the department along with 10 paramedical personal exclusively in the mortuary, as they are working for the students and patient care up to their best.

They all do and help in quality class teaching of under-graduate, and post-graduate students and patient care. Apart from this, approximately 1800 medico-legal autopsies (of the whole North East districts of Delhi) per year by the department including patient care from nearby states i.e, U.P. The department is giving consultation services for all the medico-legal cases coming to GTB Hospital. Our department is actively engaged for giving opinion in the cases related to disputes of age. Faculty members of our department are acting as expert on various selection committees, delivered guest lectures and appointed members of the editorial boards. They also work in the capacity of Chairman/ Members in large number of review / post mortem boards constituted by different govt. agencies like Delhi Govt., CBI etc., and also faculty members have been nominated as experts for National Human Right Commission, New Delhi India.

**Weaknesses:**

Weakness of the department lies in expectation from the students and public of the area, which are beyond our preview, but still we are trying to fulfil these expectations at our best.

**Opportunities:**

As the department is involved in medico- legal work since 1991. The mortuary block needs renovation. The department is planning to have toxicology lab of their own for academic purposes. If opportunities are given we will try to do better than what we are performing today.

**Challenges:**

1. In future to have toxicology lab in the department.
2. Renovation of the mortuary blocks is under progress, which will help in UG/PG teaching and patient care.

52. Future plans of the department. ---

1. The department proposes to start the toxicology lab, to help for the academic activities.
2. Up-gradation of Museum.
