CARDIORESPIRATORY LAB

The Department developed a cardio-respiratory lab with the aim of conducting important research in the fields of autonomic and pulmonary functions in different disorders. It comes with ADI's Labchart Pro 8, Pulmonary Function Testing Machine from Medisoft (Germany), and Powerlab, as well as a Body Box, fenometer, tilt table, hand grip dynamometer, and other tools for performing HRV and other autonomic function tests.

CLINICAL NEUROPHYSIOLOGY LAB

The Clinical Neurophysiology Laboratory provides a full range of neurophysiologic tests for monitoring of sensory and cognitive functions. In addition to basic and applied research, it is actively engaged in catering patients of GTB hospital.

YOGA LAB

In collaboration with the Central Council for Research in Yoga & Naturopathy (AYUSH, Health Ministry), the department has established a Yoga and Lifestyle Rehabilitation Clinic for patients and staff. Since its establishment, the facility has assisted over 1000 patients. Acupressure care has also begun.
