15. Suggestions for improving the curriculum

8 responses

Need of more academic and clinical classes

System cannot be changed

Opd and emergency should be on same day for each unit. DPG post needs to be removed. More academic and clinical classes. Some of superspecialisation postings needs to be incorporated for better experience

Focus on academics as well

Nothing

Better time management

More discussions, more super speciality postings, better and regular pateint rounds. 2D echo facility in hospital, abd and USG machine dedicated for medicine dept. More security, Nursing orderly, suction machine, gloves, vials, antibiotics, continuation sheet, ventilators, trolleys, JRs, SRs. Broader in- house investigation facilities. Regular classes, group discussions, journal clubs. Well there is no end to the list of amendments we require in this institute for I only enlisted the most basic ones.

The list of suggestions is too long to be enlisted here.
